Melaka (Port Dickson)

Port Dickson began history as a small Malay village inhabited by fishermen and traders. It used to be first known as 'Arang', which means coal, a reference to a carbon mine in the area. Around the 1820s, tin ore was discovered in Lukut town about 7km north, leading to an influx of Chinese migrants into the area. In the 1880s during the colonial era, a British official named Sir Frederic Dickson turned Arang into a port for transporting the rich tin ore deposits from Sungai Ujong to Klang, thus the name Port Dickson.
